Vehari , Pakistan

Specialized in Front-End Development and WordPress customization for modern web solutions.

Work Experience

Web Developer   Aug 2025 – Continue

TECH LAPE | Vehari

As a WordPress developer, I have experience building dynamic and scalable websites using custom themes and plugins. I work with HTML, CSS, JavaScript, and PHP to create responsive and user-friendly designs. I am skilled in adding custom functionalities, integrating APIs, and ensuring clean and secure code. I focus on performance, scalability, and delivering tailored solutions that meet client needs. I thrive in collaborative environments, working closely with designers, product teams, and other developers to deliver high-quality WordPress solutions.

ASP.NET   Jun 2022 - Aug 2023

NFC IET Multan

I have extensive experience working with the .NET framework, developing robust and scalable web applications for various industries. My expertise includes building and maintaining applications using ASP.NET, C#, and Entity Framework, with a focus on object-oriented programming and efficient database management. My work emphasizes clean, maintainable code, optimizing application performance, and delivering solutions that meet client needs.

Core Skills
